

# ONLINE DESIGN X JBD

# WHAT WE DO

Empowering homeowners to create liveable spaces from the comfort of their homes. Providing professional interior design services at their fingertips with the use of technology and virtual communication while having confidence in the design process.

It's simple.  
It's easy.  
It's design.

## CONFIDENCE + CLARIFICATION IN THE DESIGN PROCESS.

We start your design relationship with a detailed client intake where we listen and gather as much information as possible to understand you, the client, your wishes and how you use or intend to use the space. We understand the simple principles of having the ability to touch and feel materials in your own home which will help you gain confidence and clarification of the design process.

## WE ARE GAME CHANGERS.

The online interior design fixed price is one element why we are game changers in the virtual design industry. Along side professional design direction, documentation and the delivery of the design "BOX" filled with the proposed materials and finishes for your project.

# OUR GAME CHANGER

We believe that successful design is the result of a well thought out approach. Most online design services select materials from websites and the homeowners review materials and finishing samples over PDF sample boards. How are you to make an educated decision from a picture, as this usually doesn't give the material justice. Our online design philosophy is a game changer in the virtual design world as we understand the simple principles of having the ability to touch and feel materials in the comfort of your own home. A design "BOX" will show up at on your door step complete with printed design documents, floor plans and those finishing samples we all love to touch, feel and hold onto.

JAMIE BANFIELD DESIGN

# DESIGN BOX

# SELECTION

Selection of finishes, equipment and fixtures will assist in developing the unique space for you and your family. We carefully select all these elements to give you a cohesive design.

# DOCUMENTATION

Your design team creates the important and required working drawings for demolition, construction and reflected ceiling plans accompanied by finishing schedules for all elements, no matter the size of your project.

# 3D VISUALIZATION

Can't see it yet? Working with 3D modeling software brings your vision to life, and gives you the confidence in visualizing your dream space. The Jamie Banfield Design team hosts communication via telephone, email, and video conferencing we can communicate to you in real time.

# COMMUNICATION AND COLLABORATION

Our philosophy is rooted in communication + collaboration. While hosting communication via telephone, email and video conferencing we are able to communicate in real-time allowing us to review those design details, finishing samples and show you how the textures and finishes work together from the comfort of your living room. Our design team not only listens and asks questions, but diligently gathers meeting minutes that are shared with all parties. Communication + collaboration is key to a successful project.

"Our design experience was fun, enjoyable and made stress free by the team at Jamie Banfield Design! Our design was completely personalized, the design team found materials, and finishes that reflected our tastes as well as lifestyle; making the house, our home".

"We enjoyed the entire process and appreciated how they listened to and implemented our style ideas for a modern-Nordic feel, responded promptly to our emails, communicated their ideas clearly, and were patient with our indecisiveness for certain decisions."

JAMIE BANFIELD

A woman with dark hair, wearing a bright yellow sweater, is smiling broadly while holding a large, brown cardboard box. The background is a solid, light teal color. The text is overlaid on the right side of the image.

"They have nailed the floor plan configurations, overall design, and have given us a game plan to reference every step of the way. The design package was perfectly executed for construction readiness to ensure our dream could be executed."
